

PRODUCT- INFORMATION

Simple and intuitive: Belt clip for the IS910 and IS930 Tablet Series

The belt clip allows the IS910.x and IS930.x to be easily and securely attached to a stable tool belt. With the integrated kontakt® Pro adapter, the devices can be plugged in safely and quickly, ensuring one-handed operation. To remove, the IS910.x/IS930.x is simply swivelled forwards by 90° and can be removed from the holder upwards without resistance. The device can be remounted in any position. The proven clip technology is also used, for example, for radios used by the police and fire brigade.

The belt clip is compatible with the following devices: IS910 series & IS930 series.
